— Alicetri~~x~~

INTRODUCTION

Alicetri^x

Migration is not just a process, it is a journey

Our mission

Help our customers achieve significant benefits in their cloud workplace modernization journey

Get there in a cost effective, faster and secure way.

Alicetrix Enterprise Workplace Migrator, a single one stop solution to workplace migration requirements.

You are at the right place If..

"You are planning to migrate to a new cloud platform"

Migration from one Cloud Platform involves many moving parts. Alicetrix products gives a jump start to that migration process

"Your divisions are on a different cloud platform"

Suppose you are in an acquisition scenario or your organization needs consolidation of workplace platform. This is an excellent use case.

"You are new to Workplace Migration strategy"

What if you have already decided, we will help make your migration journey simple.

Enterprise Workplace Migrator

"Take control of your migration"

Alicetri~~x~~ Enterprise Workplace Migrator

Migrate into Workplace Platform with below differentiators

1

Fast

2

Own & Secure

3

One stop
solution

4

Significant User
Satisfaction

5

A Simple budget

Enterprise Workplace Migrator

“Take control of your migration”

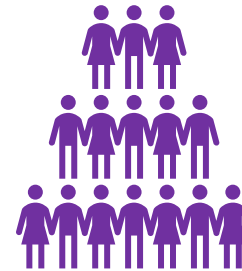

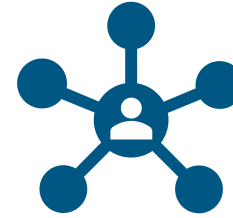

1 FAST

"You have large set of data"

"Data you have is complex"

"You have many users"

With dedicated Virtual Machines, enterprise can get the **full bandwidth** for migration. Also, **multi-threaded** algorithms allows for parallel migration and simultaneous uploads. A **server-based architecture** also ensures threads are prioritized for migration

Isolated data
features

migration

Process fast

2

Own & Secure

"You are concerned about allowing external apps to access your environment"

"You are concerned about sharing cloud secrets"

Using owner's credentials in their **own secure data center**, ensures **security encapsulations** of security credential without sharing it with a third-party application provider.

3

One Stop Solution

You need one single tool to take care of all your workplace migration needs.

Ability to do all different types of data migration i.e. **Mailboxes, Files, Calendars** in same software ensures consistent user experience, efficient scheduling and faster migration.

Gmail

SharePoint

OneDrive

Google Drive

IMAP

Exchange Online

4

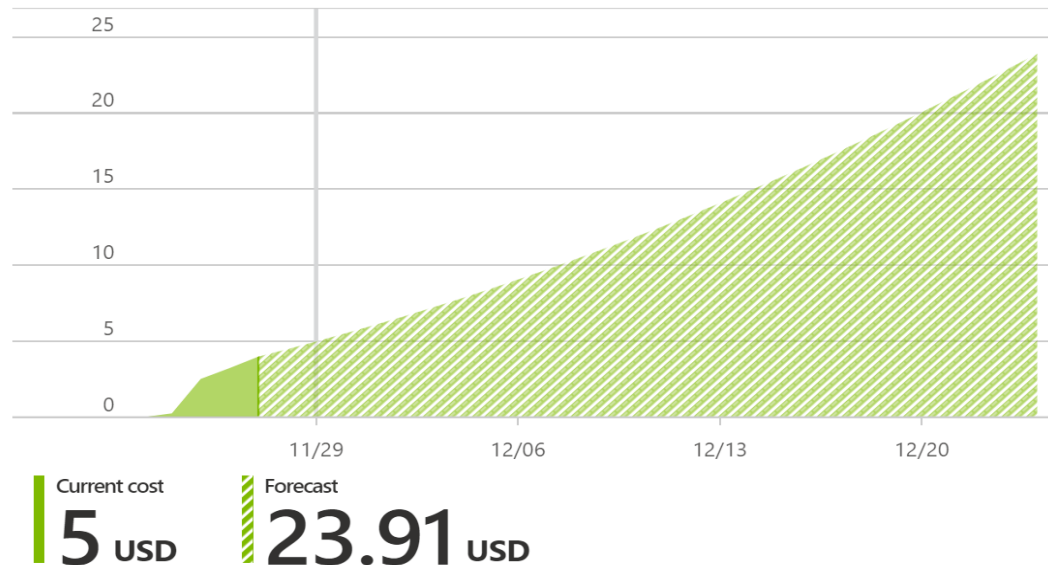

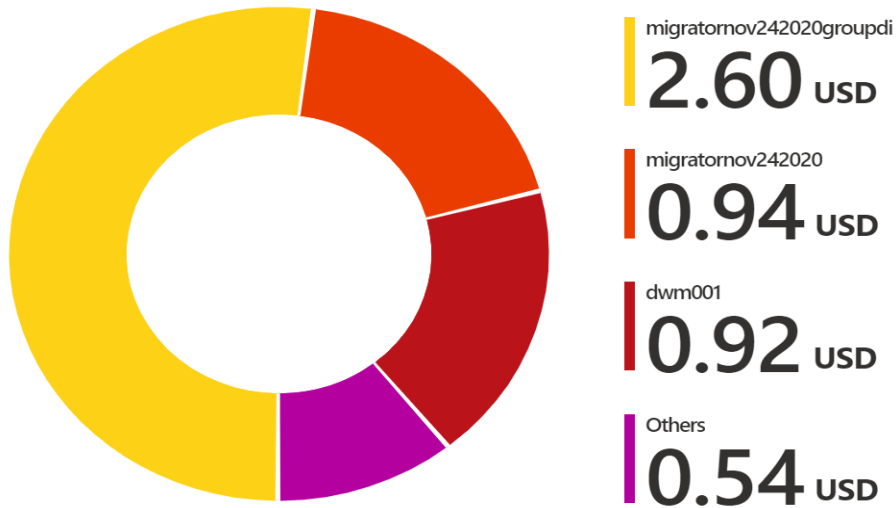

Significant User Satisfaction

"You have doubts on data in your source system"

"Your source data is not in proper format"

Ability to run **reports on Source** data and in some cases either auto-correct or **remediate** with user intervention, ex. advance capabilities example **permission matching** algorithm, ensures a look alike destination

5

A simple budget

"You are concerned about prices as they depend on data on source system"

A simple **Pay-as-you-Go** pricing model utilizing the best of cloud platform ensure a predictable budget
